- We will be hosting the area's first Fire Service Instructor 1 course held almost completely online. It is set to begin July 8th.
- Chief Moore and I assisted in teaching an ICS-400 class here in Springfield for the University of Missouri. There were students from all over the state from multiple disciplines.

- We completed the pre-pre-construction meeting with KME on the aerial. Due to the extensive and intricate process involved with aerial apparatus construction, we are hopeful this will make the factory visit for pre-con a lot smoother.

Building and Apparatus Activities-

- The parking lot lights at Station 1/Headquarters have been replaced with LED fixtures.
- Highlandville Fire had approached us about the sale of the 2002 KME. The truck did not quite meet their needs and they have notified me they will not be moving forward with it. An item I gained from this is that they were prepared to offer \$90,000 for the truck. I will be using that information to help support our sale price as it goes. The Brockaway has no movement on it yet. We will be working on the surplus of the truck over the next month.

- Peak response times: Mondays @ 7pm

Other Important Information-

- Firefighter Matthew Arnold has submitted his resignation. He has left the fire service completely.
- Chief Reynolds, Samantha, and I recently received training on a new payroll system that has been instituted by The Payroll Company. This system has a lot of great features and reports that can be generated. The system is robust and user friendly.
- We have recently gone through an upgrade to our Computer Aided Dispatch (CAD) system at 911. This caused Chief Newberry to spend a decent amount of time and effort to upgrade all of the computers in the District apparatus. There are still several items to iron out and another upgrade to the mapping system will be needed in the next few weeks.
- Battalion Chief Crawford and I recently attended a two week course at the National Fire Academy in Emmitsburg, Maryland. This class was focused on management of disasters on a large scale. We joined students from as far as Palestine for this class.
- We conducted an interview process for firefighter on the 7th. I have a list of candidates for the June meeting for your approval.
- We have posted a promotional testing for Captain and Battalion Chief. This process will be completed in the next couple of months. There are no current openings. This is to establish an eligibility list for future openings and to establish an out of title pay standard for the shifts.
- I attended the quarterly Ozarks Transportation Organization (OTO) subcommittee meeting. While there, I spoke with the director of OTO about our request to expand the intersection at FF and 2nd Street. This will be on the calendar for the summer of 2018 due to their priorities for this year.

Step 1: The Union may file a grievance on its own behalf or on behalf of any bargaining unit employee. Bargaining unit employees may also file grievances on their own behalf without the assistance of the Bargaining Unit, if they so wish. Grievances shall be filed, in writing, with the Deputy Chief, and must be filed within seven (7) calendar days after the aggrieved employee (or the Bargaining Unit, if no employee has filed a grievance through the Bargaining Unit) obtains knowledge of the event giving rise to the grievance.

The Deputy Chief shall respond in writing within fourteen (14) calendar days, stating the decision on the grievance.

Step 2: If the matter is not satisfactorily resolved in Step 1, the employee with the Bargaining Unit, may take the matter to the Fire Chief by submitting a detailed statement of the facts, applicable section of the Agreement and documentation from Step 1 within seven (7) calendar days following the Bargaining Unit receipt of step 1 response. receipt of the grievance, by written secret vote of the two (2) representatives of the Bargaining Unit and the two (2) Chief Officers. The Grievance Review Board Chairperson (the member representing the District's Board of Directors) will vote only in the case of a tie vote.

6.4 Time Limits:

Time limits as referenced in this section shall be in calendar days.

All time limits set forth in this Section shall be honored in good faith. Time limits may be extended by written or witnessed verbal agreement, given at least one (1) calendar day prior to the end of the initial time limit, between representatives of the Bargaining Unit and District. Such requested extensions for a period not to exceed three (3) calendar days shall be granted once during any step in the grievance procedure. Any time limit passed through any step of this procedure shall be cause to move beyond said step or to file a secondary grievance.

Article VII: Labor Management Committee

7.1 Establishment and Purpose:

There shall be a Labor/Management Committee with equal representation from the District and the Bargaining Unit. This committee will strive to improve relationships in all areas and to see that this agreement is properly administered at all times. The District and Local shall appoint their respective representatives to this Committee within one month after both parties sign this Memorandum. Those representatives shall meet promptly thereafter and shall set up a schedule of regular meetings. The purpose of regular meetings shall include, but is not limited to:

7.2 Bargaining Function:

- A) The parties recognize that this Agreement does not address all wages, hours, and working conditions of bargaining unit employees, and that some such items continue to be addressed by District policies. The parties have also agreed to collectively bargain as to certain specific provisions of this Agreement should the need for a change arise during the term of the Agreement.

Except to the extent otherwise specifically provided herein, if the District finds it necessary to modify any such wages, hours or working conditions established from this Agreement, it shall give thirty (30) days' written notice of such proposed change to the bargaining Unit, which may then request the parties collectively bargain on the issue. If the Bargaining Unit so requests, the Labor Management Committee shall serve as the Collective Bargaining Committee and shall attempt to reach an agreement on any proposed changes. If the members of the Committee fail to reach agreement within ninety (90) calendar days (or such earlier date as the parties reach good-faith impasse), the matter shall be submitted to the Grievance Review Board established by Step 3 of Section 6 for resolution.

7.3 Last Best Offer:

At any time during the collective bargaining process as set forth above, either party may accept the other's last proposal, despite the fact that the party accepting may have made a counterproposal, unless that last proposal has been expressly revoked in writing.

7.4 Location:

The Labor Management Committee may meet off-site in a less stressful setting to allow a free exchange of ideas and feelings. Any such meetings shall be scheduled so as to allow all Local representatives to attend without having to trade time, and Local members on duty shall be paid as though at their assigned station. In the event this cannot be arranged, the parties will attempt to agree as to how to handle the work time lost by Local representatives, but in no event, shall Local representatives be forced to take time off work or trade time in order to attend such meetings. The parties shall split any expense incurred for off-site meetings equally.

7.5 Informal Resolution:

If the Chief and shop steward are able to resolve an issue that does not formally change the terms or conditions of employment of unit employees or change the terms of this Agreement, the issue does not need to proceed to the full Labor Management Committee. This informal meeting shall suffice for the Labor Management meeting.

Article VIII: Impact Bargaining

8.1 Impact Bargaining:

If the District makes changes as set forth in Article II, Section 2.1(7) specifically with policies dealing with Benefits (District Rights), the District will provide the Bargaining unit with 30 days' advance notice whenever feasible.

PERPETUAL UTILITY & INGRESS/EGRESS EASEMENT

THIS INDENTURE is made on the ____ day of _____ 2017, by and between **BATTLEFIELD, MO FIRE PROTECTION DISTRICT**, hereinafter called Grantor, and the **CITY OF BATTLEFIELD**, of Greene County, Missouri, hereafter called Grantee whose address is 5434 Tower Drive, Battlefield, Missouri 65619.

WHEREAS, Grantor owns land in Greene County, Missouri, being described by the deed recorded in Book 2322, Page 720 of the Greene County records;

NOW THEREFORE, in consideration of Five Dollars and Other Good and Valuable Consideration the receipt and adequacy of which is hereby acknowledged, Grantor does hereby grant, bargain and sell, convey and confirm unto Grantee and unto its successors and assigns a perpetual utility & ingress/egress easement hereafter described with the right of use and ingress/egress thereto over, across and through the adjacent land of Grantor. This easement shall permit Grantee and their patrons, guests, invitees and general public when allowed, to have a right of access in and to and across the following described area, the right to construct access ways including roads, drives, sidewalks, curbs and gutters and all related appurtenances, and the right of the Grantee, or Grantee's assigns, to use for public or non-public utilities and appurtenances including, but not limited to, sewer mains, waterlines, valves, works, manholes, cleanouts, pressure sewer lines, storm sewers, drainage structures, rip-rap, electric lines, communication lines, poles, risers, utility boxes, access gates, signs and other appurtenances related to the provision of public services and function of the City or essential thereto. The burden of this easement and the initial easement footprint is explicitly located by Grantor on the following **easement description(s)**:

Refer To Exhibit A (attached)

Upon completion, the initial facilities and appurtenances explicitly fix the burden, scope of use and footprint within the above express terms of the instrument. The location of the burden shall be fixed to the degree occupied by the facilities and appurtenances upon their completion of construction. Modernization, upgrade, and expansion is permitted by this instrument.

This instrument permits the Grantee to use the explicitly described easement description to construct, install, utilize, access, operate, inspect, maintain, repair, rebuild, modify, replace, enlarge, extend, remove and patrol utilities and improvements of the Grantee and all related appurtenances thereto or necessary in connection therewith, subject to the terms and restrictions set forth in this instrument. Neither the Grantee or any assigns shall cause any building, structure, or appurtenance to be erected or maintained on the easement described above so as to interfere with free and unimpeded use and enjoyment of the right of easement and access herein conveyed.

Consideration includes the privileges and benefits mutually obtained. GRANTOR has voluntarily executed this easement as a result of negotiations with GRANTEE and GRANTEE makes no take of said easement by eminent domain. To the extent the value of any rights and interests conveyed exceed the consideration and benefit flowing to Grantor, Grantor waives the right to Just Compensation and an appraisal under the Uniform Relocation Assistance and Real Property Acquisition Policies Act. The consideration herein stated compensates Grantor for allowing the Grantee to go upon said lands and lay the initial facilities, lines and appurtenances, however Grantee is obligated to maintain and repair disturbance of the easement description and any ingress and egress routes so no substantial damage will result from the use by Grantee including disturbance to any adjacent land of the Grantor or Grantor's heirs or assigns. After the initial construction, the Grantee will pay the Grantor or Grantor's heirs or assigns any damages occasioned by use of the easement description, or in the alternative at the Grantee's option, will be permitted to repair the same to the condition prior to damage by the Grantee as is reasonably feasible as promptly as inherent conditions and scheduling reasonably permit.

Grantor acknowledges that Grantee has informed Grantor as follows:

1. Grantor understands their rights under the Uniform Relocation Assistance and Real Property Acquisitions Act and regulations at 49 CFR, Part 24.
2. The rights of Grantor include the right to just compensation for the easement, based on an appraisal or valuation. A valuation is required if the value is estimated at \$10,000 or less. Where the damage exceeds \$10,000, the right to an appraisal and the right to accompany the appraiser is required. The Grantor has the right to waive those rights and to donate the easement for this project to the Grantee.
3. After having been fully informed of the above, to the extent the value of any rights and interests conveyed may exceed the consideration and benefit flowing to Grantor, Grantor waives the right to Just Compensation and an appraisal under the Uniform Relocation Assistance and Real Property Acquisition Policies Act, and accepts such consideration herein expressed.

This instrument is intended in good faith and fair dealing to meet or exceed all statutory, common law or public policy requirements. Any uncertainty will be resolved to give force and effect to the intention of the parties, to treat both parties fairly, and both parties waive any statutory, common law, or public policy option to seek vacation of this instrument.

IN WITNESS WHEREOF Grantors have executed this instrument the day and year first above written.
